

## Family Health Plus Child Health Plus Medicaid, PCAP, WIC

### ■ Health Insurance

Health insurance is available for most uninsured children under age 19, living in New York State under one of two programs: Medicaid or Child Health Plus. Almost all children are eligible, regardless of how much your family earns or your child's immigration status.

Health insurance is available under Medicaid and Family Health Plus for most people aged 19 to 64, who have limited income and resources and who are citizens or who fall within one of many immigration categories.

### ■ What programs am I eligible for?

One application is used to apply for the following programs: Child Health Plus, Family Health Plus, Medicaid, PCAP, Family Planning and WIC. Based on the information you give us, we will tell you which program you and/or your children may be eligible for.

### ■ What services are covered?

Important services such as regular medical check-ups, prescription drugs, hospital care, eye exams, eyeglasses, mental health services, and much more are covered. Medicaid and Family Health Plus have an added guarantee for persons under the age of 21, that provides for all necessary treatment through the Child/Teen Health Program. There are no deductibles or co-payments for children's health insurance.

The chart below shows the amount of income (before taxes) at which you can get free or subsidized health insurance. For children under 19, if your income is more than these amounts, your child can get health insurance for a higher cost.

FAMILY SIZE	INCOME LIMITS			RESOURCE LIMITS
	ADULTS	CHILDREN** UNDER AGE 19	PREGNANT WOMEN	PERSONS AGE 19 OR OLDER ONLY

### ■ Do I have to pay anything to join?

How much you pay depends on your family income. For most families, health insurance is free. Other families have to pay a small amount.

### ■ How will I get my medical services?

People eligible for Family Health Plus and Child Health Plus will receive their health care through health plans that have their own groups of doctors, hospitals and pharmacies. Before joining a plan, make sure your doctors are a part of that plan.

People eligible for Medicaid/PCAP may also join a plan, or they may go to any doctor who accepts Medicaid. You should talk to your doctor about what kind of health insurance he/she accepts.

### ■ What do I have to do to enroll?

It's now easier than ever to apply for health insurance. There are a lot of places in your neighborhood where you can get help. These places have experienced and friendly staff that are available on weekends and evenings to answer all of your questions and help you apply.

### ■ What is available for pregnant women?

New York State provides free health insurance for many pregnant women with limited income regardless of their immigration status under Medicaid and the Prenatal Care Assistance Program (PCAP). Pregnant women who participate in PCAP can receive a wide range of services designed to ensure a healthy pregnancy, including prenatal visits, health education, and specialty medical care. Services continue until two months after the pregnancy ends. Family planning services are available for 24 months after the pregnancy ends. After the baby is born, he or she will automatically receive health insurance for a year.

### ■ What is Women, Infants & Children (WIC)?

WIC is a program to improve the nutrition and health of women, and infants and children under age 5. WIC provides families with nutritious food, such as infant formula, milk, juice, cheese, eggs, cereal, dried beans/peas, and peanut butter. WIC also gives families nutrition and health education, and refers families to other health services. WIC is free for all eligible families.

### ■ What is the Family Planning Program?

This program covers health services and related drugs and supplies to maintain good reproductive health. Men and women of childbearing age may be eligible.
