

MOTOR VEHICLE CRASHES

This category includes injuries to the occupants of motor vehicles, including motorcycles, involved in crashes whether on or off the highway. Motor vehicle-related injuries not involving crashes, such as a fall while boarding a bus (E824) are excluded from this grouping, and are included in the "other" category (appendix 1). Injuries to pedestrians or pedal cyclists from motor vehicle crashes are excluded from this category and are included in the sections titled "Pedestrian Injuries" and "Bicycle Injuries". The specific codes included in this category can be found in appendix 3.
